

METAIS JAIME DIAS

SECOND CHOICE MATERIALS

METAIS JAIME DIAS, SA

SECOND CHOICE MATERIALS

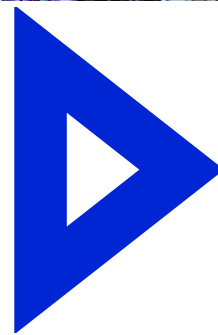

ABOUT US

Metals Jaime Dias S.A was founded in 1998 and has since then developed to be a company suited for the overall management of industrial waste. Located in Guidões-Trofa, in a 180 000 m2 yard, MJD has the human resources, infrastructure, equipment and technical expertise to sort and breath new life into a wide range of materials.

Our main goal is to improve the quality of our surrounding environment by offering high quality services that meet the needs and expectations of our clients and other interested parties.

OUR GOALS AND VALUES

- ▶ COMMITMENT
- ▶ COMPETENCE
- ▶ TRANSPARENCY
- ▶ LEADERSHIP
- ▶ SUCCESS

SECOND CHOICE MATERIALS

Twelve years ago, MJD expanded its scope, integrating the sale of second choice materials and becoming a specialized service center.

Metals Jaime Dias SA, commercializes steel products, namely plates, tubes and beams, at very competitive prices.

In addition to the vast range of flat and other steel products, MJD is also a service center which possesses the right equipment to provide its customers with the following services:

- cut to length
- slitting
- plasma cutting
- laser cutting
- bending

Within the last year alone we received a total of 4000 tons of material, making sure the needs from our customers are met and guaranteeing quality every in the services provided.

Our main goal is to keep expanding, diversifying both clients and suppliers, and providing an even more diverse range of materials and services.
